Fallbrook Propane Gas is a fast-growing company with the atmosphere of trust, goodwill, respect for one another and our customers, and has a commitment to high-performance, productivity, accountability, and an appreciation for the joy of work.

As a propane delivery driver, we rely on your expertise to comply with all safety standards to ensure our product is transported in a safe and efficient manner.

Some of the duties and responsibilities of a driver include:

- Transport propane
- Inspect Vehicles
- Comply with safety and driving regulations
- Ensure safety of propane tanks and associated equipment

What does a driver do?

A driver is responsible for delivering propane and other hazardous material to residential, commercial, industrial, and agricultural customers in a safe and timely manner.

A great driver has positive, and knowledgeable interactions with customers. Building relationships is key. They are part of the community they serve and treat their customers as good friends who they aim to protect by taking the appropriate safety measures put in place to accomplish this. Drivers are in-tune with their surroundings and see potential hazards in advance to avoid them. They are brand ambassadors who aid in the positive outlook of the company and are happy to interact face to face with our customers.

The goal of a driver is to provide best in class service, transport product safely, inspect vehicles regularly to mitigate safety hazards, and represent the company positively while creating a great customer experience.
